Profile

Hello there,
I am a person who is enthusiastic, self-motivated, dependable, responsible, and hardworking. I am a mature team player who can adapt to any challenging situation. I can work well in a team setting and on my own initiative. I can work well under pressure and meet tight deadlines and because of my previous experiences, I can say that with particular pride.

Projects

Ahmed Ayad, portfolio
I created a portfolio website to describe myself and what I am doing now, what I have learned, what I am learning now, and my projects.

Shoes Website, Nike
I drew and designed a website for Nike using my ideas, and then I constructed it using the language that was required for it to be flexible, responsive, and simple to use.

Clone Youtube
I created a clone YouTube website with a similar logo and icons to the original.

Clone Facebook
I created a Facebook clone that is responsive and similar to the original.

Built calculator
I designed a tool to assist people in budgeting their money.

Professional Experience

Front End Web Developor
London, England
As a freelance Front End Web Developer, I worked on a few projects.

crew trainer (Mcdonald's)
present | London, England
I am currently employed at McDonald's as a crew trainer and am in the process of becoming a shift manager.

Customer servise
Banha, Egypt
I worked in a clothing store, assisting customers in getting their best garments to suit them correctly.

Education

Aerospace Engineering, Kingston University
09/2021 | London, England
I am studying Aerospace Engineering now in my first academic year.

Skills

-Leadership. *(As the leader, it is my responsibility to teach the newcomer or new employee how to do the job and teach them all they need to know. If the shift manager is not there or busy, it is my responsibility to settle everything while the shift manager is not in his position.),*
-Critical thinking and problem solving. *(As a crew trainer, I am the store's first point of contact for any issues that arise from employees and customers.),*
-Teamwork and collaboration. *(Working at a restaurant teaches you how to work as a team and collaborate with one another to provide the best meals.),*
-Time Management. *(Working at a restaurant requires you to be able to manage your time well in order to give high-quality service on time, which I gained Time Management from working In the food industry.),*
-Oral and written communications skills. *(Communication skills are required so that we can speak with one another effectively and swiftly in order to deliver the best service possible.),*
-Professionalism and strong work ethic. *(Work must be completed to the best of our abilities so that we can all push each other to accomplish our best. There is no reason to perform half work or no work.)*

Access to HE Diploma, Kingston college
09/2021 – 07/2022 | London, England
I studied Access to HE Diploma in engineering and now I am in a process to enter the university for aerospace engineering.

ICT, West London college
London, England
I went there to study ICT but the teacher and Education system was not that professional due to the pandemic, so I left it.

GCSEs, Newman catholic college
09/2017 – 07/2020 | London, England
I have done my GCSEs when I moved to London and I was not speaking the language at all so it was hard for me to study GCSEs itself as it was hard to native people and study English too, but it was a challenge for me and I passed it and gained experience from it.
